TEAM BUILDING PACKAGES

Infuse meaningful learning and deepen your team's connections

We've partnered with 3C Team Building and Training since 2015 and have helped over 350 work teams transfer important lessons from their escape room back to their workplace through our [Effective Teamwork: Lessons from an Escape Room team building package](#).

Here's what you can expect in this 2 or 3-hour experience:

- Escape room
- Self-reflection exercise: characteristics of high-performing teams
- Detailed feedback on your team's performance from our expert facilitators
- Group discussion on key takeaways and applications for your ongoing teamwork
- Introduction to relevant research from psychology to help improve team performance

"This experience was incredibly valuable. We appreciated the way the workshop highlighted dynamics and behaviours in the escape room that can be directly related back to our business. The opportunities that we brought to the surface as a group, through Jay's facilitation, are being implemented right now to improve our culture and our success as a team. We highly recommend this experience to other organizations."
